B. Administration and Problems:

Records Management Section: Installation of the new filing system for Col. Grogan's office was begun Monday. The instruction of the office personnel in the various phases of classifying, filing, and other techniques is now in progress.

A representative of the Department of State was contacted in order to discuss means for simplifying and expediting State Department approval for Agency personnel to examine "restricted access" materials maintained by the National Archives for the Department of State. Previously, a letter was written to the Department of State requesting approval for each case. Upon receipt of a reply, another letter was written to National Archives requesting access to the material and indicating State Department approval had been given. In the future, a letter addressed to the National Archives will be routed through the Department of State for approval and forwarded by them to the National Archives.

Records Center Section: A review was made of the processing time required for the initial distribution of the last 10 CIA notices, and 4 regulations. Processing involves counting in accordance with the distribution required, packaging and addressing. The elapsed time also includes the time the material is waiting to be picked up by the courier. For notices, the average time was 1 hour and 30 minutes; for regulations, the time was 2 hours and 35 minutes.

Mail Control Section: The Office of P&S has reported that the two mail trucks ordered for courier service are scheduled for delivery by 23 March. A procedure has been prepared covering the operations involving the use of the new trucks.

On Wednesday, 4 March 1953, [] of the Mail Control Section, made arrangements with Mr. Worley of the Highway Division to have several of the couriers take a driving test which will qualify them to drive a ton and one-half truck. Mr. Worley agreed to call [] when he had a truck available for this test and assured him that it would be well in advance of the delivery date of the two new mail trucks.

25X1

Courier Service to the home of the Deputy and Deputy Director:

27 Feb. 7:00 P.M. trip to [] home.
1:40 A.M. trip from [] home to CIA

25X1

25X1

On Wednesday, 4 March, a courier was assigned to make a trip to New York City for the JIA committee. In addition, an average of five calls per day were received from that office requesting special local courier service.

A survey of the delivery service for reproduction material was completed. A report with recommendations is now being typed and will be submitted in the coming week.
